

MainOne at a Glance - AFPIF 2016

Presented by: Chidinma Iwe

MainOne

Internet exchanges

©EnchantedLearning.com

MainOne's connection to the regional Internet Exchanges facilitates local content switching, giving West Africa users faster, better access to content through Nigerian and Ghanaian exchanges.

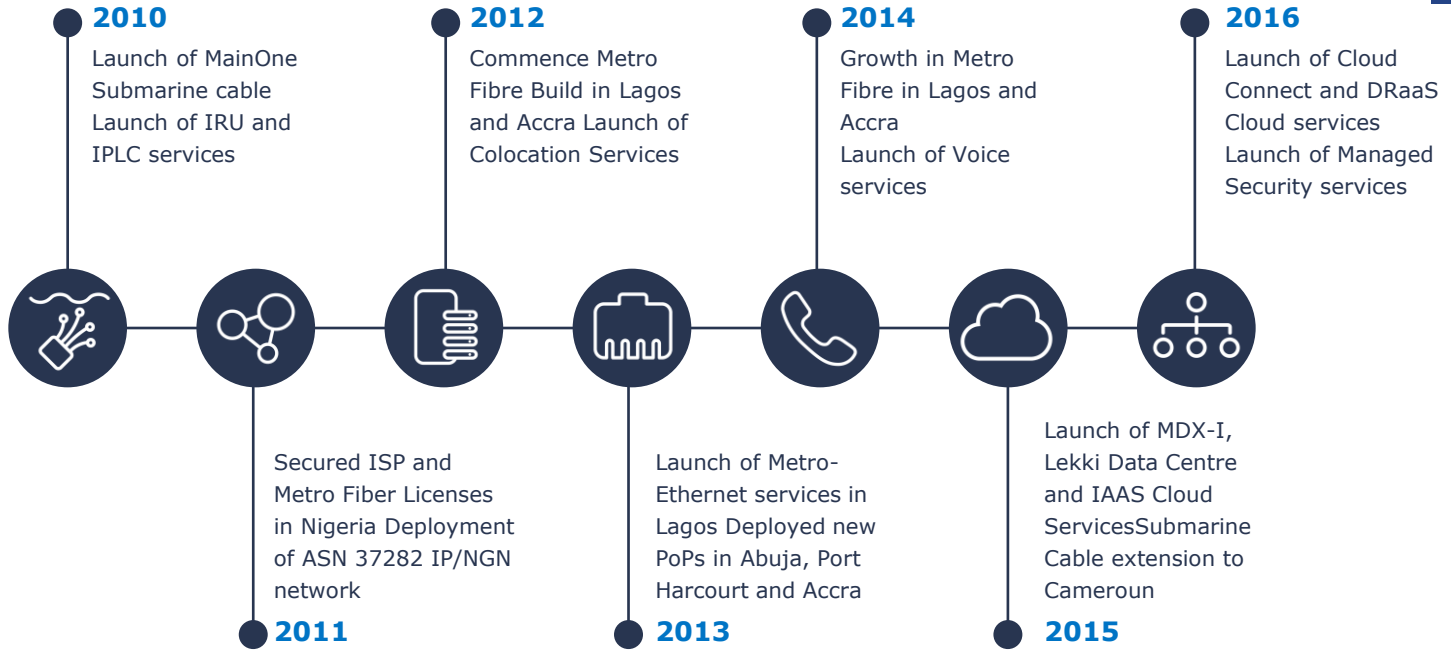

We cover (West Africa)

- Service Coverage in 8 West African countries:
 - Nigeria||Ghana||Togo||Burkina Faso||Benin||Cameroon||Niger||Ivory Coast
- Global Interconnection to over 300 operators via Telehouse North/East & Global Switch London

Our evolution

Definitions:

IRU – Indefeasible Right of Use
IPLC – International Private Leased Circuit

IaaS – Infrastructure as a Service
DRaaS – Disaster Recovery as a Service
